

SUCIANA NURIKA APRILIANI

Polokarto, Sukoharjo 57555 | sucianaapriliani06@gmail.com | www.linkedin.com/in/suciananurikaa/

Fullstack Developer with hands-on experience in building scalable web applications using React.js and Laravel. Skilled in both frontend and backend development, including REST API integration with PHP and MySQL. Experienced in mobile development using Flutter and passionate about crafting intuitive and visually appealing user interfaces using Figma and Canva.

TECHNICAL SKILLS

- Frontend: React.js, HTML, CSS, JavaScript, Tailwind CSS, Bootstrap
- Backend: Node.js, Express.js, PHP
- Database: MySQL, PostgreSQL
- Mobile: Flutter, Dart
- Tools: Git, GitHub, Postman, Figma, Canva, Jira, Lark Suite, Netlify, Sublime Text

ORGANIZATIONAL EXPERIENCE

Emailkomp UNS – Creative Economy Staff (2025)

- Managed member data and transaction records to ensure accurate documentation.

SIF – Fundraising and Bazaar Committee (2025)

- Managed product sales and supported promotional activities during bazaar events.

Emailkomp UNS – Head of Creative Economy Department (2026)

- Led the division and coordinated fundraising programs and team activities.

PKKMB UNS – Staff of Branding and Publication (2026)

- Designed and managed promotional content for event branding.

PROJECT

Atap – Web Application (Frontend Developer, UI/UX Designer)

- Developed responsive web application using React.js with reusable components
- Integrated REST APIs for dynamic data interaction
- Designed user interface and experience using Figma
- Deployed and hosted application using Tailscale for secure access

Backend & Mobile Development – Ivosight (Internship Project)

- Developed backend features using PHP and MySQL for data processing and API handling
- Assisted in API integration to support system functionality
- Transitioned to mobile development using Flutter to build application features and UI

Library Book Mobile App (Final Project)

- Developed a mobile-based library management application using Flutter
- Implemented features for book data management and user interaction
- Designed simple and user-friendly interface

Dino Endless Runner Game Unity Project

- Developed 2D endless runner game using Unity and C#
- Implemented game mechanics such as obstacle spawning, scoring system, and collision detection
- Designed basic game UI and player interaction

EXPERIENCE

Bootcamp & Internship Platform PT Tiga Serangkai (Fullstack Intern)

July 2026 - Present

- Developed a web-based platform for managing online bootcamp and internship programs
- Built both frontend and backend features using modern web technologies
- Integrated REST APIs for seamless communication between frontend and backend
- Collaborated with team members to develop scalable and functional system

Atap (Project) – Frontend Developer UI/UX Designer | Hummalabs (Internship)Feb 2026 - July 2026

- Developed dynamic and responsive user interfaces using React.js with reusable components to improve scalability and maintainability.
- Integrated REST APIs to support real-time data interaction between frontend and backend systems.
- Deployed and hosted the web application using Tailscale for secure network access and remote connectivity.

Industrial Internship Backend Dev, Mobile Dev (Practical Work) – IvsightJan 2024 - Feb 2024

- Assisted in backend development using PHP and MySQL to manage server-side logic and data processing.
- Collaborated in API integration and data handling to ensure smooth system functionality.
- Transitioned to mobile development by assisting in building application features and user interfaces using Flutter.

Industrial Internship Frontend Dev (Practical Work) – M-One TechSep 2023 – Nov 2023

- Developed a personal profile and portfolio website using HTML, CSS, and JavaScript.
- Implemented responsive layouts and intuitive navigation to enhance user experience.

EDUCATION

Universitas Sebelas Maret2024 - Present

Diploma III (D3) in Informatics Engineering

- Focused on web development, application development, and database management.
- Developed various web-based projects and system documentation including user stories, use cases, and diagrams.

SMK Muhammadiyah 1 Sukoharjo2021 - 2024

Software Engineering (RPL) / Software and Game Development (PPLG)

- Built basic web and application projects while strengthening programming fundamentals and UI design skills.

ADDITIONAL INFORMATION

Languages :

- Indonesian (Fluent)
- English (Basic)
- Korean (Basic)

Certificates

- Industrial Internship Certificate – M-One Tech (2023)
- Industrial Internship Certificate – Ivsight (2024)
- Web Programming Competition – HMP-TI (2025)
- Amazon Web Services (AWS) (2025)
- Cisco Packet Tracer (2025)
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate (2026)
- Web Programming Project – Strawfuel (Olivia x UNESA, 2026)
